John C Ernst Name Change Announcement

Ernst has been the most recognized and trusted name for liquid level, process observation, and flow monitoring instruments for over 100 years. During that time, there have been several companies branching off from the original, and associated with it, confusion in the marketplace. As we start rebranding, we will lead with our strength, Ernst, and follow with a clear statement of what we provide, Instruments. Most of these are mechanical instruments, but they are instruments just the same.

The transition of John C. Ernst to Ernst Instruments will be phased in over the upcoming months to ensure that we will not interrupt the service and support you have counted on to sustain your company. We will still have our experienced direct staff to support you with our more than 100 years of combined industry experience. Moving forward, you can expect us to add more products so we may better support your facility's needs.

Follow us on LinkedIn and on our website as we introduce the new platform, updated catalogs, and more throughout the year. Thank you for your trust, your patronage, and your faith that Ernst Instruments will continue to provide the best value in liquid level, process observation, and flow monitoring instruments. Call us at 888-943-5000 or email us at sales@ErnstInstruments.com if you have any questions.
